

Scheduling Tool Basic Layout

Scheduling Table
Input start and stop times

<input type="checkbox"/>	Start	Stop	Groups
<div><div><div>+</div><div><input type="checkbox"/></div><div><div></div></div></div></div>	10	15	<div><div><div></div></div><div>GROUP 5</div><div>GROUP 6</div></div>
<input type="checkbox"/>			

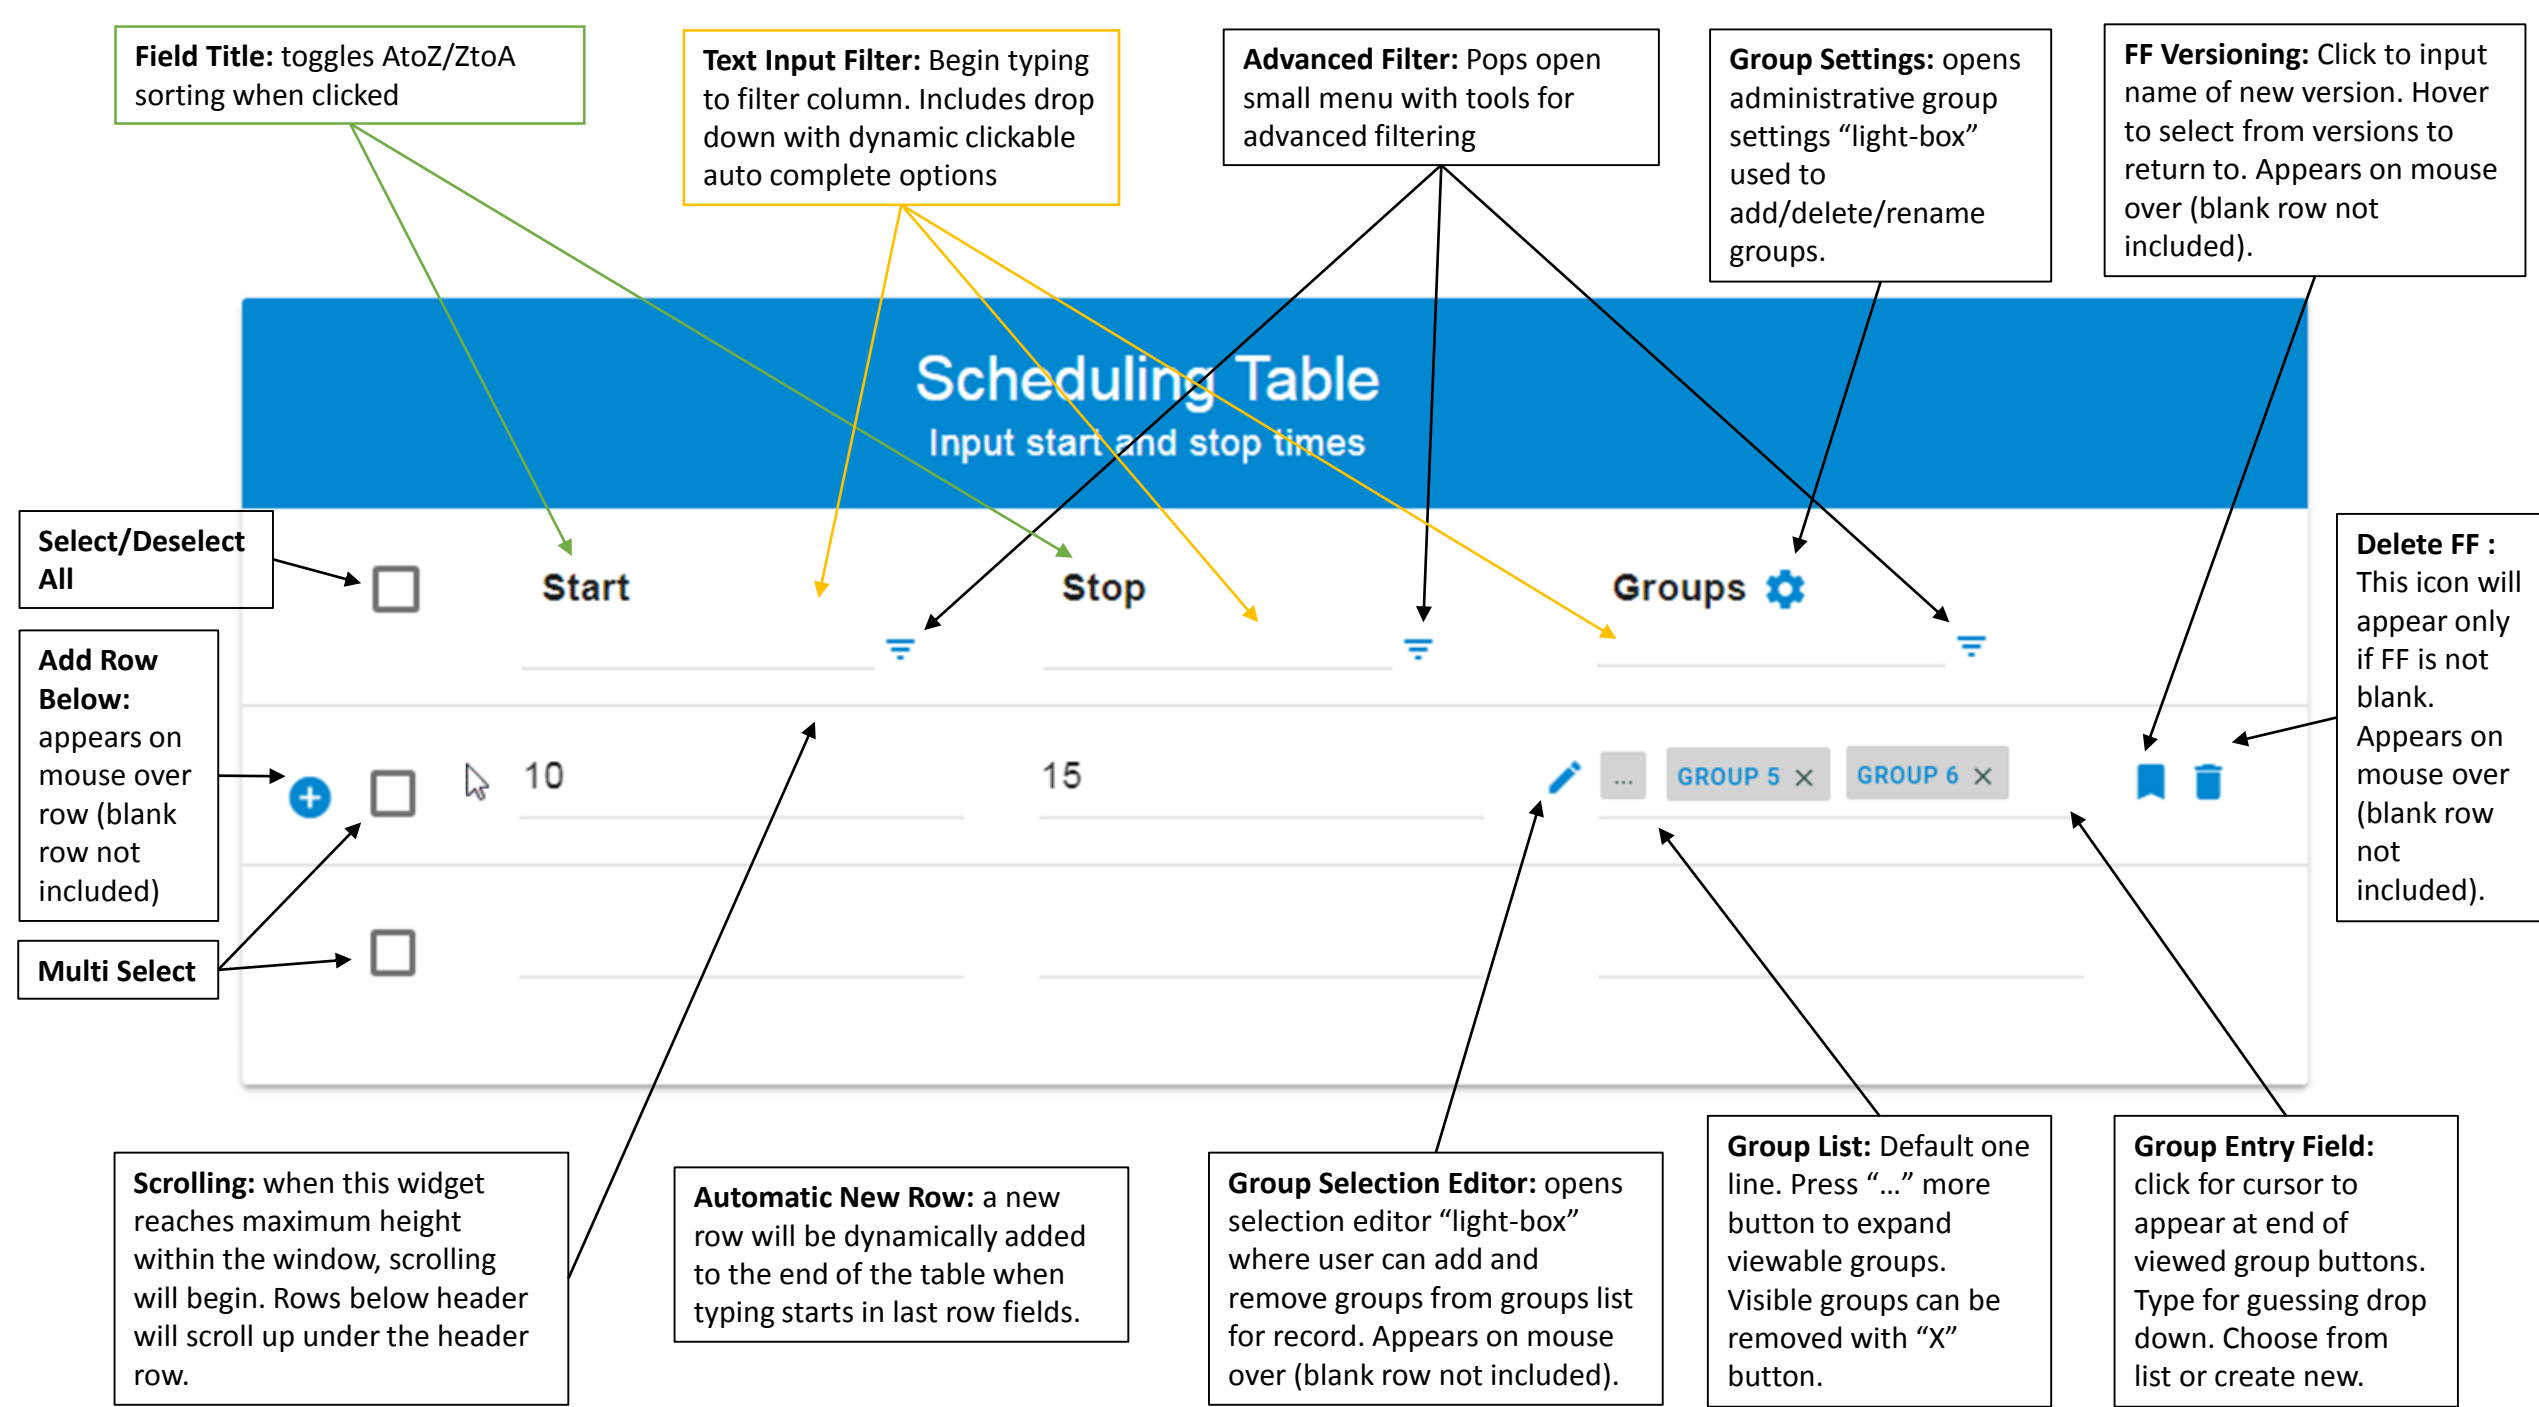

Field Title: toggles AtoZ/ZtoA
sorting when clicked

Text Input Filter: Begin typing to filter column. Includes drop down with dynamic clickable auto complete options

Advanced Filter: Pops open small menu with tools for advanced filtering

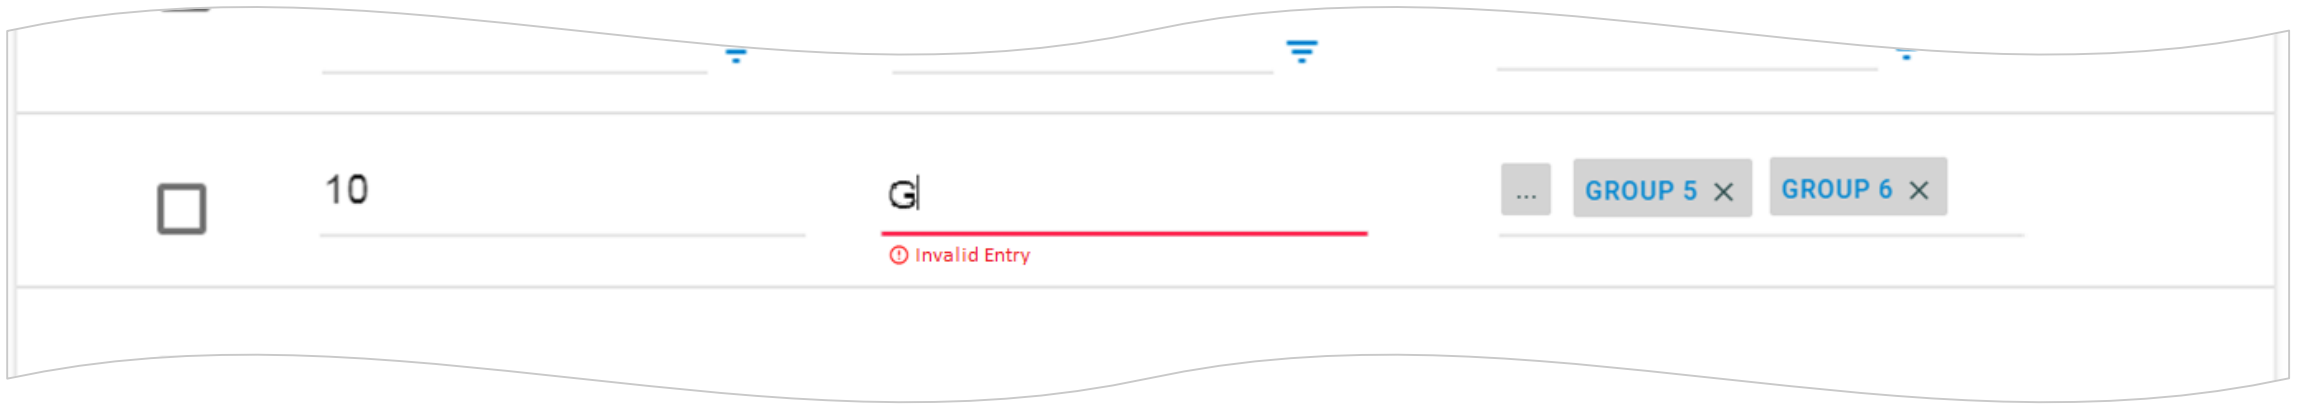

Group Settings: opens administrative group settings “light-box” used to add/delete/rename groups.

FF Versioning: Click to input name of new version. Hover to select from versions to return to. Appears on mouse over (blank row not included).

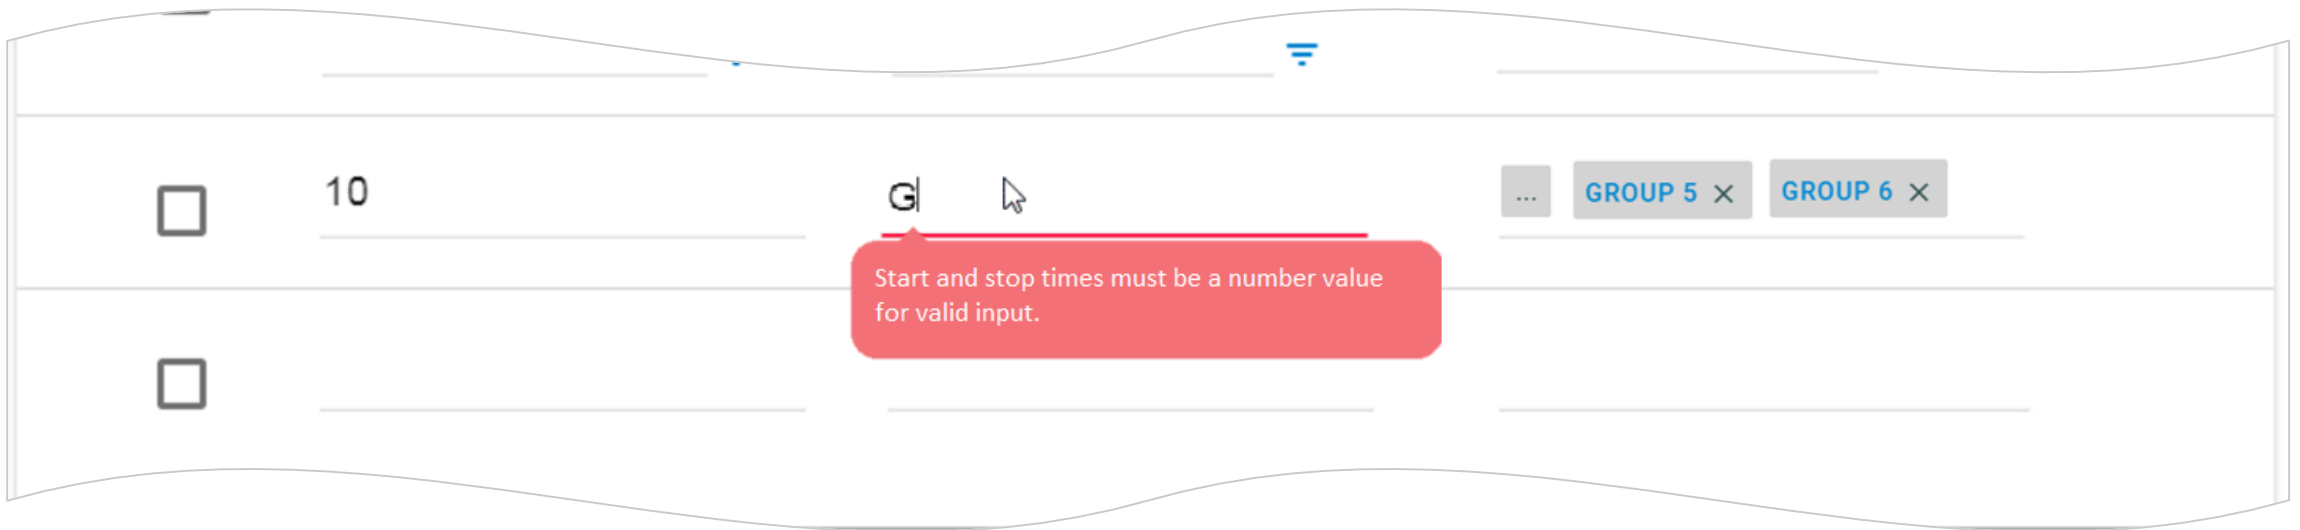

Validation

With dynamic error checking: if improper data is entered, underline of field turns red, and brief error message given.

A screenshot of a web form with three rows. The first row contains a checkbox, a text input with the value '10', and a text input with the value 'G'. The text input 'G' has a red underline and a red error message 'Invalid Entry' below it. The second row is empty. The third row contains a checkbox, a text input, and a text input. To the right of the form are two buttons labeled 'GROUP 5' and 'GROUP 6', each with a close icon.

With mouse over errored field: bubble appears below with more detailed error information.

A screenshot of the same web form as above, but with a mouse cursor hovering over the text input 'G'. A red error bubble appears below the input, containing the text 'Start and stop times must be a number value for valid input.' The text input 'G' has a red underline. The second row is empty. The third row contains a checkbox, a text input, and a text input. To the right of the form are two buttons labeled 'GROUP 5' and 'GROUP 6', each with a close icon.

Scrolling

Widget will dynamically adjust height to fit within window size. When number or rows becomes too high, scroll bar appears. Rows scroll behind title row and bottom border.

Scheduling Table			
Input start and stop times			
<input type="checkbox"/>	Start	Stop	Groups 
			
<input type="checkbox"/>	10	15	 GROUP 5 × GROUP 6 ×
<input type="checkbox"/>	1	1.5	 GROUP 1 × GROUP 3 ×
<input type="checkbox"/>	5	5.5	 GROUP 5 ×
<input type="checkbox"/>	50	51	 GROUP 2 × GROUP 6 ×

Filter Button

This drop down menu will slide open directly below the “advanced filter” button when clicked.

Advanced Filter Button:
slides down menu.

Advanced Filter Options:
slides over menu with logical filter options like Excel (different for Start/Stop number columns and Group text column)

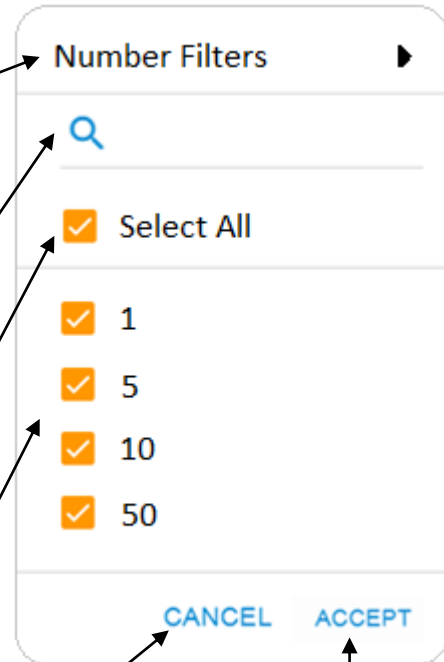

Search: characters typed into search filter values that appear below “Select All”

Select All Check: Toggles all check boxes on/off of values below

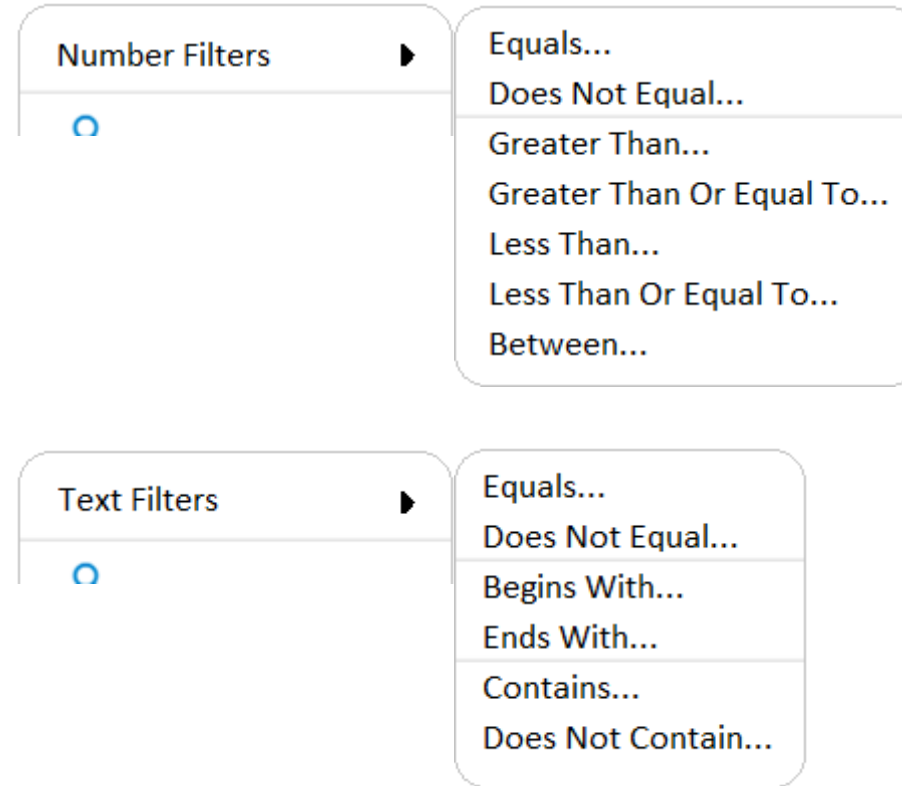

Filter Values: Check box toggles values hidden or visible in table.

Cancel: close window and make no changes to filters

Accept: close window and apply filters

The main filter dialog box is titled "Number Filters" and features a search icon. Below the search bar, there is a "Select All" checkbox and a list of filter values: 1, 5, 10, and 50, each with a checkbox. At the bottom, there are "CANCEL" and "ACCEPT" buttons.

Two shadow boxes are shown, one for "Number Filters" and one for "Text Filters". Each box lists logical filter options: "Equals...", "Does Not Equal...", "Greater Than...", "Greater Than Or Equal To...", "Less Than...", "Less Than Or Equal To...", and "Between...". The "Text Filters" box also includes "Begins With...", "Ends With...", "Contains...", and "Does Not Contain...".

Advanced Filter Options: slides over on mouse over “Number Filters” (Start/Stop) or “Text Filters” (Groups).

Similar to Excel, the selection of one of these options opens a shadow-box with fields to execute the desired logic.

Other options for this could include a field for regular expressions.

Group Field

On typing into group field: suggested groups will appear below. On click of one of these groups, that group will be added to the row. If group does not exist, click on “(New Group)” option to create new with entered name.

Scheduling Table

Input start and stop times

<input type="checkbox"/>	Start	Stop	Groups
<input type="checkbox"/>	10	15	... GROUP 5 x GROUP 6 x Gr
<input type="checkbox"/>			

“...” Button: Expands row vertically to multiple lines in order to show all group tags. Row will condense back to previous state when user clicks anywhere outside of that row.
